PROFILE

Backend Engineer specializing in **Python, Django, Django REST Framework, and RESTful API development**. Experienced in building scalable web applications, multi-vendor e-commerce platforms, content management systems, authentication and authorization workflows, caching, background task processing, and database-driven applications. Hands-on experience with **PostgreSQL, Redis, Celery, Docker, JWT authentication, and Linux-based deployment environments**. Passionate about writing clean, maintainable code and building production-ready backend systems.

PROFESSIONAL EXPERIENCE

Founder & CEO — Xvera Labs

2026 - Present

Founded and lead an independent software development practice delivering end-to-end digital solutions — **e-commerce platforms, web applications, mobile apps, and custom software** — for local clients across various industries.

- ◆ Managed complete project lifecycle: requirement gathering, architecture, development, deployment, and client support.
- ◆ Delivered custom Django/Python-based e-commerce and web platforms for multiple local businesses.
- ◆ Built cross-platform mobile applications integrated with backend APIs.
- ◆ Currently developing a proprietary software product in-house — not yet publicly launched.
- ◆ Handled client relationships, project timelines, and technical decision-making as founder.

Python Backend Engineer — TheTechFury

May 2025 - Present

Developing and maintaining web applications and backend systems using **Python, Django, Django REST Framework, PostgreSQL, Redis, Celery, and Docker**.

- ◆ Designed scalable and modular backend architectures using Django and DRF.
- ◆ Developed secure RESTful APIs for web and mobile applications.
- ◆ Implemented authentication, authorization, and role-based access control.
- ◆ Worked with PostgreSQL database design and Django ORM.
- ◆ Implemented Redis caching and Celery background task processing.
- ◆ Used Docker and Docker Compose for development and deployment environments.
- ◆ Built and customized Django Admin dashboards and CMS workflows.
- ◆ Collaborated on e-commerce, content management, and corporate platforms.

PROJECTS

BTR Mall — Multi-Vendor E-Commerce Platform

Aug 2025 - Present

In Progress

Developing a scalable multi-vendor marketplace inspired by platforms such as Daraz and Amazon.

Technologies: Python, Django, DRF, PostgreSQL, Redis, Celery, Docker, React, React Native

- ◆ Developed modular backend architecture for a multi-vendor marketplace.
- ◆ Designed RESTful APIs for web and mobile applications.
- ◆ Implemented seller onboarding and store management.
- ◆ Built product catalog, categories, brands, variants, attributes, and inventory management.
- ◆ Developed cart, wishlist, checkout, order, shipment, and delivery workflows.
- ◆ Implemented JWT authentication and role-based access control.
- ◆ Added Redis caching and Celery background task processing.
- ◆ Configured Dockerized development and deployment environments.
- ◆ Created API documentation using Swagger/OpenAPI.

Live Demo: Coming Soon

Goal Line Report — Content Management & Editorial Platform

Developed a content-focused platform for publishing stories and posts with role-based editorial workflows.

Technologies: Python, Django, PostgreSQL, Celery, Jazzmin, Bootstrap 5, CKEditor

- ◆ Developed story and post management with categories, tags, attachments, and rich-text editing.
- ◆ Implemented editorial workflow: **Draft → Review → Approval → Published.**
- ◆ Built role-based access for Chief Editors, Editors, and End Users.
- ◆ Customized Django Admin using Jazzmin with filters, search, actions, and optimized workflows.
- ◆ Implemented scheduled publishing and automated background tasks using Celery.
- ◆ Added commenting, likes, bookmarks, subscriptions, and email notifications.
- ◆ Developed secure authentication and permission management.

Live Demo: <https://goallinereport.com/>

ElecMech — Engineering Services & Machinery Platform

Developed a corporate website and machinery catalog for an engineering services company.

Technologies: Python, Django, MariaDB, Bootstrap 5, JavaScript, SMTP

- ◆ Built machinery and industrial product catalog.
- ◆ Implemented product inquiry and WhatsApp ordering integration.
- ◆ Developed contact and inquiry management with automated email notifications.
- ◆ Created responsive layouts for desktop, tablet, and mobile.
- ◆ Implemented SEO-friendly pages and performance optimization.
- ◆ Built project and portfolio showcase functionality.

TECHNICAL SKILLS

PROGRAMMING LANGUAGES

- Python
- JavaScript
- SQL
- HTML5
- CSS3

DATABASES

- PostgreSQL
- MariaDB
- SQLite
- Database Schema Design

API DEVELOPMENT

- RESTful APIs
- Swagger / OpenAPI
- Postman
- JSON

WEB SCRAPING & AUTOMATION

- Scrapy

VERSION CONTROL

- Git, GitHub, Bitbucket

DATABASE TOOLS

- pgAdmin 4, DBeaver

BACKEND DEVELOPMENT

- Django
- Django REST Framework (DRF)
- FastAPI
- Django ORM
- Django Signals

DEVOPS & DEPLOYMENT

- Docker, Docker Compose
- Gunicorn, Nginx
- Linux (Ubuntu), SSH
- Environment Variables (.env)
- Python Virtual Environment (venv)

DATA MODELING

- Hierarchical Data Modeling
- Django Tree Structures

BACKGROUND & CACHING

- Celery, Redis

FRONTEND DEVELOPMENT

- Bootstrap 5, jQuery
- AJAX, Tailwind CSS
- CKEditor

AUTHENTICATION & SECURITY

- JWT Authentication
- Role-Based Access Control (RBAC)
- Django Permissions & Groups

SEO & OPTIMIZATION

- Django Sitemap Framework
- SEO Best Practices
- Caching Strategies, Query Optimization

ENGINEERING PRACTICES

- REST API Design, Modular Architecture
- MVC / MVT Architecture
- Code Refactoring, Debugging, Logging

ADMIN & CMS

- Django Admin, Jazzmin

EDUCATION

BSIT

University of Education
2020 - 2024

FSC

Govt. Higher Secondary School, Farooqabad
2018 - 2020

Matric

Govt. High School, Village Butter
2016 - 2018
