

90-Day Professional English Roadmap

30 minutes a day • Beginner to confident professional communication

Written by Muhammad Nouman
Founder, Xvera Labs

Duration	90 Days / 13 Weeks
Daily Practice	30 Minutes
Core Skills	Speaking • Listening • Grammar • Vocabulary • Writing
Professional Focus	Meetings • Emails • Presentations • Interviews • Technical English

The goal: Do not try to sound complicated. Aim to sound clear, confident, natural, and professional.

1. Fixed 30-Minute Daily Routine

5 min — Vocabulary	Learn 5 useful words/phrases. Say each aloud and create your own sentence.
7 min — Listening	Listen to a short English clip twice. Notice pronunciation, phrases, and sentence structure.
8 min — Speaking	Speak aloud about the day's topic and record yourself. Do not read a full script.
5 min — Grammar/Tenses	Study the day's grammar point and make 3-5 examples.
5 min — Writing	Write 3-6 sentences, a short email, message, or mini paragraph.

Golden rule: 30% study + 70% practice. English improves when you actually use it.
Use your real work as practice: Django/Python, projects, clients, meetings, deadlines, bugs, interviews, and presentations.

2. English Tenses — Practical Guide

Tenses are important, but do not try to memorize grammar only. Learn each tense through a simple formula + example + your own sentence.

Present Simple	Subject + V1 / V1+s	I work at Xvera Labs. / He works on backend projects.	Routine, facts, repeated actions.
Present Continuous	Subject + am/is/are + V-ing	I am working on a new project.	Action happening now / temporary activity.
Present Perfect	Subject + have/has + V3	I have completed the API integration.	Past action connected to the present / experience.
Present Perfect Continuous	Subject + have/has been + V-ing	I have been working on this project for two weeks.	Action started in the past and continues/recently stopped.
Past Simple	Subject + V2	I finished the task yesterday.	Completed past action.
Past Continuous	Subject + was/were + V-ing	I was debugging the API at 5 PM.	Action in progress at a past time.
Past Perfect	Subject + had + V3	I had finished the task before the meeting.	Earlier of two past actions.
Past Perfect Continuous	Subject + had been + V-ing	I had been working for three hours before the meeting.	Duration before another past event.
Future Simple	Subject + will + V1	I will send the report tomorrow.	Future decision, promise, prediction.
Going to Future	Subject + am/is/are going to + V1	I am going to start a new project.	Plan/intention or evidence-based prediction.
Future Continuous	Subject + will be + V-ing	I will be working at 10 AM tomorrow.	Action in progress at a future time.
Future Perfect	Subject + will have + V3	I will have completed it by Friday.	Completed before a future deadline.

Quick practice: Take one sentence such as “I work on a project.” Change it into different tenses: “I am working...”, “I worked...”, “I have worked...”, “I will work...”. Then say each sentence aloud.

4. Practical Examples

Example 1 — Self Introduction

“Hi, my name is Muhammad Nouman. I work in software development and I’m interested in building strong backend and AI solutions. I have experience working with Python and Django. Currently, I’m improving my professional English because I want to communicate more confidently with clients and teams.”

Practice: Replace the details with your own information. Record yourself for 60–90 seconds.

Example 2 — Project Update

“Here’s a quick update on the project. We have completed the authentication module, and we are currently working on the API integration. We had a small issue with the database yesterday, but it has been resolved. The next step is testing. We expect to complete this phase by Friday.”

Example 3 — Polite Request

“Could you please share the latest requirements? I’d like to review them before I start the next task. If there are any changes, please let me know.”

Example 4 — Explaining a Problem

“The issue occurs when the user submits the form without selecting a category. The API returns an error, which prevents the request from being completed. I’ve identified the cause and I’m working on a fix. I’ll test it and share an update once it is ready.”

Example 5 — Interview Answer

“One project I’m proud of was a backend application where I worked on API development and database integration. My responsibility was to design and implement the required endpoints. One challenge was handling validation and error cases. I improved the implementation and made the API more reliable. This experience taught me the importance of clean code and testing.”

5. Weekly Progress Tracker

Score yourself from 1–5 every Sunday. Do not worry about low scores; use them to decide what to practice next.

Week	Speaking	Listening	Vocabulary	Grammar	Writing	One improvement
1	___/5	___/5	___/5	___/5	___/5	_____
2	___/5	___/5	___/5	___/5	___/5	_____
3	___/5	___/5	___/5	___/5	___/5	_____
4	___/5	___/5	___/5	___/5	___/5	_____
5	___/5	___/5	___/5	___/5	___/5	_____
6	___/5	___/5	___/5	___/5	___/5	_____
7	___/5	___/5	___/5	___/5	___/5	_____
8	___/5	___/5	___/5	___/5	___/5	_____
9	___/5	___/5	___/5	___/5	___/5	_____
10	___/5	___/5	___/5	___/5	___/5	_____
11	___/5	___/5	___/5	___/5	___/5	_____
12	___/5	___/5	___/5	___/5	___/5	_____
13	___/5	___/5	___/5	___/5	___/5	_____

6. Vocabulary Notebook Method

Use four columns: Word/Phrase → Meaning → My sentence → Related word/phrase. Do not memorize a word without using it. Review after 1 day, 3 days, 7 days, and 14 days.

Target: 5 useful words/phrases per day. Over 90 days, that gives you up to 450 learning opportunities.

7. Speaking Correction Method

Record → Listen → Correct → Repeat. Listen for grammar mistakes, pronunciation, pauses, repeated words, and unclear sentences. Fix only 2–3 mistakes at a time.

8. Professional English Rules

1. Clear English is better than complicated English.
2. Use shorter sentences when speaking.
3. Learn phrases, not only individual words.
4. Ask for clarification when you do not understand.
5. Be polite, direct, and specific in professional communication.
6. Use your real work as your English practice material.

9. Day 90 Target

By the end of this roadmap, aim to introduce yourself for 2–3 minutes, hold a 10-minute professional conversation, explain technical work simply, participate in meetings, write clear emails, deliver a 7–10 minute

presentation, answer common interview questions, and summarize normal English audio.
